How to Make Out-of-Town Calls

Decide first whether the lower priced "Station-to-Station" service can be used or whether "Person-to-Person" service is necessary. To help you decide these calls are explained below.

How to Place the Call

STATION-TO-STATION CALLS
(From One Telephone to Another)

A station-to-station call is one on which you agree to talk to anyone who answers at the called telephone.

A call filed for a private branch exchange extension station or a hotel room number takes the person-to-person classification.

To place a station-to-station call, give the operator—

First—The name of the place you are calling.

Second—The telephone number you are calling (if known) or address name of called station, if the telephone number is not known. For example: John Doe's Residence—425 Main Street.

Third—Hold the line when requested to do so.

A three-minute connection is allowed before "overtime" charges begin if the initial rate exceeds 25 cents. If less than 25 cents, a 5-minute connection is allowed.

FEATURES OF STATION-TO-STATION CALLS

1. The rates are less than on person-to-person calls.
2. They are completed more quickly.
3. There are no report charges on Station-to-Station calls, except in the case of collect calls not completed because of the refusal of the called party to accept the charges.
4. Person-to-person and station-to-station rates are reduced after 7:00 P. M. to 4:30 A. M. and all day Sunday if the initial rate exceeds 35 cents. The time of day at the originating point when conversation starts determines whether the day or night rate applies.
5. Charges begin when the called telephone is answered.
6. Charges may be reversed without any change in rate when the rate is 25 cents or more. A slight additional charge is made when the initial rate is less than 25 cents.

PERSON-TO-PERSON CALLS
(From One Person to Another)

A person-to-person call is one on which you desire to talk to a particular person or a private branch exchange extension station. The rate on a person-to-person call is higher than the rate on a station-to-station call.

To place a person-to-person call give the operator:

First—The name of the place you are calling.

Second—Telephone number of the called station (if known) or the address of the called station if the telephone number is not known.

Third—The name of the person you are calling.

Fourth—Hold the line when requested to do so.

The charges can be reversed.

A three-minute conversation is allowed before "overtime" charges begin.

If the called telephone is reached but the call cannot be completed because the person desired is not available and cannot be reached elsewhere, a nominal report charge is made to compensate the Telephone Company for the work done on the call.

COLLECT CALLS

If the charges on the call you are placing are to be paid at the distant telephone, you should tell the operator when filing the call that it is a "collect" call. The charges, if accepted by the subscriber at the distant telephone, will be billed to that telephone. If the charge is not accepted at the distant telephone and the call is not completed, you will be billed with the report charge.

For further information regarding classes of service and rates—call "Long Distance."

RULES AND REGULATIONS APPLYING TO ALL SUBSCRIBERS CONTRACTS

Classification of Areas as the Basis for Furnishing Telephone Service—Economical operation of the telephone business, to secure protection to the whole body of rate payers and to the business itself, requires that the property be built and operated in accordance with a definite plan under which specified classes of service are regularly furnished in specified areas or types of areas. The Telephone Company therefore does not undertake to furnish any desired class of service at any desired location, nor does it undertake to extend its plant to remote sections where such extension is not warranted by public necessity as distinguished from personal desire, except where protection is afforded. The general plan for furnishing telephone service as authorized in the General Exchange Tariff is based on a classification of areas by types for the determination of the classes of service available and for the application of rates.

Term Period of Contract—The Company's contracts covering the furnishing of telephone service are ordinarily for initial term periods of one month. Under some special condition involving unusual installation costs or involving the installation of special equipment, contracts may be required for longer initial term periods. The Telephone Company's obligation to furnish telephone service is dependent upon its ability to procure and retain suitable facilities and rights for the construction and maintenance of the necessary circuits

Construction and Installation Charges—The charges and regulations specified in the Company's General Exchange Tariff apply in connection with all classes of service equipment or facilities furnished by the Telephone Company.

No charge is made for providing new pole line construction on public highways, when the subscriber is located within the base rate area.

No charge is made for providing and maintaining new pole line construction along public highways outside the base rate area, when such pole lines are to be used in serving subscribers in general.

Except as provided above, when an applicant for service is located outside of the base rate area in territory where new pole line construction is required and the cost of providing the necessary additional poles is more than three times the annual mileage charge for the circuit thereon, connection with the Telephone Company's system is provided in one of the following methods as the applicant may elect:

The subscriber may bear the cost in excess of the amounts specified above of providing the poles and pay extra exchange line mileage charges for the necessary circuit. Ownership of such poles is vested in the Telephone Company. Maintenance of poles and circuits is at the expense of the Telephone Company.

The subscriber at his own expense may furnish the portion of pole line and circuit from his location to an agreed upon point of connection with the Telephone Company's system. The subscriber is required to maintain or bear the expense of maintaining his portion of the pole line and circuit and also to bear the expense of installing and maintaining the station equipment, except that when the station is brought to the Company's central office for repairs, no labor expense incurred for such repairs is charged to the subscriber. The subscriber is charged extra exchange line mileage charges for that portion of the Telephone Company's circuit outside of the base rate area. Ownership of the portion of pole line and circuit provided by the subscriber is vested in the subscriber. Ownership of the station equipment is vested in the Telephone Company.

Poles on private property to be used in serving an individual subscriber must in all cases be furnished and maintained at the subscriber's expense. Ownership of such poles on private property is vested in the subscriber. No charge is made for furnishing and maintaining poles on private property when such poles are to be used to carry circuits serving subscribers in general. In such cases, ownership of poles on private property is vested in the Telephone Company. Whenever it becomes necessary to replace poles on private property, the new poles are furnished only in accordance with the arrangements specified above. All circuits on poles on private property are owned and maintained by the Telephone Company.

When a specified type of construction is desired by a subscriber, as for example, when underground service connections are desired in places where aerial drop wires are regularly used to reach subscriber's premises or where the individual requirements of a subscriber make the installation unusually expensive, the subscriber is required to bear the cost of such special construction or installation.

Service Connection Charges and Charges for Moves and Changes—A schedule of fixed charges is established covering the connection of a subscriber's station with the exchange of the Company, and covering the charges for moves and changes. These schedules of charges are published in detail in this directory.

Unauthorized Use of the Telephone—Telephone equipment and facilities are furnished for the use of the subscriber, employees, agents or representatives of the subscriber or members of the subscriber's domestic establishment except in connection with semi-public telephone service and except as the use of the service may be extended to joint users.

All equipment furnished by the Telephone Company shall remain the property of the Company. Such equipment shall not be used for any toll or consideration to be paid by any other person than the subscriber, nor for performing any part of the work of transmitting, delivering or collecting any message, where any toll or consideration has been or is to be paid any party other than the Telephone Company, without the written consent of the Company.

Subscribers may not disconnect or remove or permit others to disconnect or remove any apparatus installed by the Telephone Company, except upon the written consent of the Company.

Unauthorized Attachments—The telephone equipment, apparatus and lines furnished shall be carefully used and no instrument, appliance or device, of any kind, not furnished by the Telephone Company shall be attached to or in any way used in connection with such telephone equipment, apparatus and lines. In case any instrument, apparatus or device of any kind other than that furnished by the Telephone Company is attached to or connected with any part of the Company's property, the Telephone Company reserves the right to remove such instruments, apparatus or device and to suspend or discontinue service without any claim on the part of the subscriber.

No binder, holder or auxiliary covers shall be used in connection with any telephone directory furnished by the Telephone Company.

Changes of Call Numbers—The subscriber has no property right in the telephone number or any right to continuance of service through any certain central office and the Telephone Company may change the telephone number or the central office designation whenever it deems it desirable in the conduct of its business.

Party Line Service—When party line service is furnished, the Telephone Company may in consideration of the rate at which service is furnished establish and furnish service to one other subscriber in the case of two-party line service, and other subscribers in the case of multi-party (more than two-party) line service. The Telephone Company reserves the right to cancel any two-party line or multi-party line contract, upon thirty days' notice, whenever in the judgment of the Company, the use of the subscriber holding such contract is such, from large use or other causes, as to interfere with the reasonable use of others connected with the same line.

All ordinary expense of maintenance and repairs, unless otherwise specified in the General Exchange Tariff or the Local Exchange Tariffs, is borne by the Telephone Company. The subscriber is billed the actual cost of each telephone instrument or piece of apparatus injured or destroyed otherwise than by unavoidable accident.

Terms of Payment—The subscriber shall pay monthly in advance or on demand all charges for exchange service and equipment and shall pay on demand all charges for toll service. The subscriber assumes responsibility for all charges for exchange service and toll messages originating at the subscriber's station, and for toll messages received at the subscriber's station on which the charges have been reversed with the consent of the person called.

All charges due by the subscriber are payable by the subscriber at the Telephone Company's Commercial Office or at any other agency duly authorized to receive such payment. If objection in writing is not received by the Telephone Company within thirty days after the bill is rendered, the account shall be deemed correct and binding upon the subscriber.

In the event of abandonment of the station, the non-payment of any sum due or any other violation by the subscriber of the Telephone Company's rules and regulations applying to subscribers' contracts or to the furnishing of service, the Company may without notice, either (a) suspend service until all violations have ceased, or (b) terminate the subscriber's contract without suspension of service or (c) following a suspension of service, sever the connection and remove any of its equipment from the subscriber's premises. When service has been suspended for non-payment of charges, restoration of service is made upon payment of charges due, and in addition a restoration charge of $1.00.

When instruments have been removed for non-payment, the contract is considered to have been terminated. Reinstallation of service may be made only upon the execution of a new contract.

Uninterrupted Service Not Guaranteed—In view of the possibility of errors and difficulties in the transmission of messages by telephone and the impossibility of fixing in all cases the causes thereof, the subscriber assumes all risks connected with the service, as the Telephone Company cannot guarantee uninterrupted working of its lines and instruments. In case service is interrupted otherwise than by the negligence or wilful act of the subscriber, an allowance is made, computed on the basis of the minimum monthly rate for such of the telephone service, equipment and facilities furnished as are rendered useless or inoperative. Such allowance covers the period the interruption continues after notice in writing is received by the Telephone Company. No other liability shall in any case attach to the Telephone Company.

For the purpose of inspecting, repairing or removing any part of the Telephone Company's equipment, apparatus and lines on the subscriber's premises, the Company's employees shall have access thereto at any reasonable hour. No liability shall attach to the Telephone Company by reason of any defacement or damage to the subscriber's premises, resulting from the placing of the Company's instruments, apparatus and associated wiring on such premises, or by the removal thereof, when such defacement or damage is not the result of negligence on the part of the Company or its employees.

The Telephone Company shall not be liable for damages or statutory penalties in any case where a claim is not presented in writing within sixty days after the alleged delinquency occurs.

When suitable arrangements can be made, lines of other companies may be used in conjunction with the Telephone Company's lines in establishing wire connection to points not reached by the Telephone Company's lines. In establishing connections with the lines of other companies the Telephone Company will not be responsible or liable for any action of the connecting company.

The Telephone Company will not transmit messages, but offers the use of its facilities when available, and will not be liable for errors in transmission or for failure to establish connection. Employees of the Telephone Company are forbidden to accept either oral or written messages to be transmitted over the lines of the Company.

Public Pay Station Telephones—Public pay station telephones are located at various points for the convenience of telephone subscribers and the general public. Instruction cards are displayed with each public pay station telephone, explaining the operation and patrons should observe and follow those instructions when making calls.

Telegrams by Telephone—In certain cities telegrams may be transmitted to and received from telegraph offices by telephone. To send a telegram or cablegram, call by name the telegraph company desired. By arrangement with the telegraph companies, telephone subscribers may have charges for messages received or sent, charged to his telephone, and collected with his telephone bill.

Service Connection Charges and Charges for Moves and Changes

Experience and careful investigation of the entire subject has demonstrated the fact that certain service connection charges covering to some extent the average cost of the initial expense of establishing service for new subscribers and of furnishing additional facilities to old subscribers should be paid by such subscribers and should not be borne by the entire body of telephone users. Therefore, a uniform schedule has been prepared which embodies rates that should not retard telephone development in any section and will place upon subscribers responsible therefore a portion of the costs incident to such service connections, leaving the balance as a charge on the business generally. This schedule is as follows:

SERVICE CONNECTION CHARGES:

1. For Individual and Party Line Service..... $2.50
2. For each extension station connected with any class of telephone service.. $2.50
3. For Private Branch Exchange Service the charge for establishing service connection:
   (a) For each trunk line connecting the Private Branch Exchange with a central office..... $2.50
   (b) For each telephone connected to the Private Branch Exchange except Operators' Telephone Sets..... $2.50

4. To cover in part Directory, Accounting, Circuit and switchboard expenses in cases where service is established by the use of instrumentalities already in place in the subscriber's premises and no change is made in the type or location of such instrumentalities, each main station, $1.00.

CHARGES FOR MOVES AND CHANGES.

The charges for moves and changes in equipment will be as follows:

1. For moving a telephone set from one location to another on same premises a charge of $1.50.

2. For moving any other equipment or wiring from one location to another on the same premises, a charge based on the cost of the labor and material.

3. For other changes in equipment or wiring, a charge based on cost of labor and material.

4. The Company will, subject to the usual charges above set out, install or change the location of a telephone provided it has facilities available at as early date as practicable, and the conditions under which it is then working permit.

CAROLINA TELEPHONE & TELEGRAPH COMPANY

"TRAVEL BY TELEPHONE"

And Reduce Mileage Cost!

Some Selected Long Distance Rates

The rates given below are for the initial period. An initial period of 5 minutes is allowed on Station-to-Station calls where the rate is 25 cents or less. Where the rate is more than 25 cents the initial period is 3 minutes on all classes of calls. Rates to over 70,000 other points may be obtained by calling "Long Distance."

On Person-to-Person messages of more than 10 minutes' duration, the charge for time in excess of 10 minutes is the same as for Station-to-Station calls.

To speed your service, we will furnish, without charge, a special long distance directory for listing telephone numbers of firms or individuals frequently called, also rates and other information of value. A call to the Business Office will secure this directory.

NAME	City	Tel. Number

TRY THIS SERVICE

YOU can save money and get speedier service on long distance telephone calls by calling for the number of the distant telephone wanted, or if the number is not known, then tell "Long Distance" you wish to make a station-to-station call, giving the name of the person or business whose telephone you wish to call.

There is a reduction in rates for all calls between the hours of 7 P. M. and 4:30 A. M. and all day Sunday. Charges on station-to-station calls may now be reversed.

Messenger service is accepted on all person-to-person calls. Appointments may also be made on person-to-person calls.

Place your Long Distance calls by telephone number! This enables the operator to give you faster service.

If the number of the distant telephone is not known the operator will furnish it when completing your call. It should then be listed above for future use.

Give the number and speed up your service!

CAROLINA TELEPHONE & TELEGRAPH COMPANY

IT'S *Easy* TO USE THE

CLASSIFIED TELEPHONE DIRECTORY

Here's How to Find Where to Buy the Article or Service You Want—

1. Locate the heading descriptive of the article or service you wish. These are listed alphabetically. Trade-marks or brand names will be found under headings descriptive of the product or service.

2. Then select from the listings the firm or individual with whom you wish to do business.

You will find general headings descriptive of particular kinds of articles or services with lists of dealers who can serve you.

You will find display representation which will provide you with more complete buying information.

Here's How to Find the Telephone Number of a Business Firm You Have in Mind—

1. Locate the heading descriptive of the general type of business. This will be found in its regular alphabetical order.

2. Then locate the desired firm and telephone number by examining the listings under the heading.

Some Ways In Which The Classified Yellow Pages Can Help You

Radio Service

Batteries

Plumbers

- You are looking for a radio repair shop or beauty shop that has been recommended to you, but you have forgotten the exact name of the firm. Look in the Yellow Pages.
- You are a newcomer in the neighborhood and want to call a nearby drug store for quick service. Look in the Yellow Pages.
- Battery trouble develops. You want to try a new battery which you have seen advertised but do not know where to find it. Look in the Yellow Pages.
- You plan to install a stoker and are considering various types and makes. Look in the Yellow Pages.
- You call some plumber occasionally and due to the unusual spelling of the name or for other reasons it cannot be remembered. Look in the Yellow Pages.
- You want to send an expensive garment to a reliable laundry where you can be assured of first class work. Look in the Yellow Pages.
- You are going away and you want to have something valuable stored during your absence with a firm that can give you the necessary protection. Look in the Yellow Pages.
- You want your refrigerator or automobile serviced by an authorized dealer, but do not know his name. Look in the Yellow Pages.

What Is a Live Prospect?

He is a man with a lot of questions in mind. He wants to know WHERE and WHAT and WHOM and HOW and WHEN.

And thousands of live prospects are coming to the Yellow Pages of this book daily to find out—

WHERE they can buy something.

WHAT they can get for their money.

WHOM they can buy it from.

HOW they can get it.

WHEN delivery can be had.

HAVE you complete REPRESENTATION?

IF NOT—get listed under the various Headings to cover your business.

When an emergency arises look in the Classified Telephone Directory —It will help you

Information to aid you in obtaining the greatest possible value from your telephone will be found in the front of your telephone directory.

Are You *There?*

Many businesses are very much there-In the Classified

—there with their goods at the different classifications where customers look to satisfy their requirements.

'Tis a wee chilly hour when the Browns are startled from their slumbers by the insistent jingle of the telephone bell . . . . Later Mr. Brown will complain bitterly of having to dash through the dark hall and down the stairs to the telephone; whereupon he will listen to some pointed remarks about man's mistaken ideas of economy and hasn't she said all along they ought to have an extension telephone in the bedroom, etc. Think of the steps it would save her in the daytime, etc. etc.'

Directory Advertising Reaches Out For New Customers

Your message in the Telephone Directory reaches out for new customers.

It works for you night and day in practically every home, office and store in this community.

An advertisement in this directory is seen by all classes of buyers.

The Way of Today!

THERE'S the call you'd like to make or the one you'd like to answer privately. An extension telephone away from the crowd. *That's the answer!*

Then there's the sharp ring that cuts the night, when everything below is dark and still. Another extension at your bedside. *That's the answer!*

Extension telephones cost little. Merely a few cents a day. The price of your daily newspaper. Before you forget it, why not put one in *now?*

The Telephone Way is the Way of Today!

The TELEPHONE patronage is a Satisfied Permanent Patronage, which should be carefully cultivated and courteously served.

TELEPHONE Salesmanship has five requisites:

Knowledge of Goods
Knowledge of Human Nature
Personality
Tact
Sincerity.

THE EXTENSION TELEPHONE

Busy housewives and efficient business men realize the importance of being readily available to friends and customers; of saving the valuable time and energy lost hurrying to and from the telephone. An extension telephone obviates these difficulties—and brings the call to you.

An extension telephone is an ever-ready help in the home, a sales builder in the business world, an unfailing time and energy saver everywhere. Any additional information about this service, its operation and cost, which by the way is surprisingly low, may be obtained by calling our Business Office.

An Advertising Medium That Gets Big Results

The Telephone Directory is indispensable. It goes into homes and offices and stays there in daily use.

It's a good advertising medium and enables you to keep your name hourly before telephone users at a very small cost.

Your advertisement in the Telephone Directory will reach a great number of people, a great number of times, both day and night, at a low cost.

Call our Business Office today and arrange for advertising space in the next issue of this directory.

CAROLINA TELEPHONE & TELEGRAPH COMPANY

CAROLINA TELEPHONE & TELEGRAPH COMPANY

TARBORO, N. C.

Employes of this Company are forbidden to accept either oral or written telephone messages to be transmitted by an employe of this Company over the lines of this Company.

INSTRUCTIONS

Whitakers N. C.

PLEASE READ THE INSTRUCTIONS CAREFULLY, AS THE GOOD SERVICE AVAILABLE DEPENDS UPON THEM

1—First consult the directory for the number you want to call, remove the receiver from the hook and listen for dial tone and dial the number wanted.

2—If, after having dialed the correct number you get the busy tone, this indicates that the number you are calling is being used by someone else. Hang up the receiver and call again later.

3—When answering your telephone do not say Hello. Say, this is number 221 or whatever your telephone number may be. This will enable the calling party to know whether or not he has dialed the right number, and will eliminate useless conversation.

4—Should you wish to make a second call, pull the receiver hook down and hold it in this position for about 5 seconds. Release the hook, and dial the number wanted.

5—To call a subscriber on your own line, take down your receiver. If the line is clear, dial number 01 and the last figure of your own number and the last figure of the number desired. Hang up the receiver. Your bell will then ring and the called party's bell will ring. When the called party answers your bell will stop ringing. Remove your receiver and talk. If the called party does not answer you may stop the bells from ringing by removing the receiver from the hook, and replacing it.

6—Codes for party lines are as follows:

	Code	
271	1	1 short ring.
242	2	2 short rings.
243	3	3 short rings.
274	4	4 short rings.
275	5	1 long and 1 short ring.
276	6	1 short ring.
277	7	2 short rings.
278	8	3 short rings.
279	9	4 short rings.
270	0	1 long and 1 short ring.

7—To call Long Distance or Information, dial No. 04.

8—To call subscribers in Enfield dial 08.

"Another One of Those Wait-a-Minute Calls"

"BILL, I feel like hanging up on a man who orders someone to get me on the telephone and then makes me wait until he is ready to talk.

"It is one of the biggest discourtesies in business today.

"My time is worth money. There's no reason why I should waste it waiting for some man to complete a call HE started.

"If people who call me had as high regard for their time and my good will as I have for my time and their good will, they would do as I do when I start a call, be ready to talk the moment the connection is established."

Of all bad telephone habits the one most universally condemned by business men is the "wait-a-minute" habit. It is a habit that not only causes loss of time and business friendship, but often turns away profitable trade.

When YOU START A CALL, the courteous, business-like thing to do is to remain at your telephone and be ready to talk.

When YOU RECEIVE A CALL do what you want people to do when YOU call—answer promptly.

CAROLINA TELEPHONE & TELEGRAPH COMPANY

"Another One of Those Wait-a-Minute Calls"

"BILL, I feel like hanging up on a man who orders someone to get me on the telephone and then makes me wait until he is ready to talk.

"It is one of the biggest discourtesies in business today.

"My time is worth money. There's no reason why I should waste it waiting for some man to complete a call HE started.

"If people who call me had as high regard for their time and my good will as I have for my time and their good will, they would do as I do when I start a call, be ready to talk the moment the connection is established."

Of all bad telephone habits, the one most universally condemned by business men is the "wait-a-minute" habit. It is a habit that not only causes loss of time and business friendship, but often turns away profitable trade.

When YOU START A CALL, the courteous, business-like thing to do is to remain at your telephone and be ready to talk.

When YOU RECEIVE A CALL do what you want people to do when YOU call—answer promptly.

Carolina Telephone & Telegraph Company

"One is *never* lonely with the telephone near."

"DO I mind being alone? Well, I can't say I'm frightfully keen about it, but there are worse things, you know... Exactly, one is never out of reach of one's friends with a telephone near... When Grant is away on one of these trips, he seldom fails to call me every evening by long distance... My dear, it's the best sort of tonic — just hearing his voice... No, I'm not a bit uneasy at night any more. It was his idea that we have an extension put in the bedroom, and you can imagine what a comfort it is, and besides it gives me such a complete sense of security."

To be without a telephone in the home these days is to suffer the inconvenience of a darker Age—while its presence assures the utmost in expediency, comfort and protection.
